

SUMTER COUNTY BOARD OF COMMISSIONERS
EXECUTIVE SUMMARY

SUBJECT: Memorandum of Agreement between the Sumter County Board of County Commissioners and Sumter County School Board authorizing the use of school board property north of CR 528 and west of SR 471 as a drainage retention area for the CR 528 Phase 1 roadway improvement project (Staff recommends approval).

REQUESTED ACTION:

☐ Work Session (Report Only) **DATE OF MEETING:** 11/10/2009
☒ Regular Meeting ☐ Special Meeting

CONTRACT: ☒ N/A Vendor/Entity: _____
Effective Date: _____ Termination Date: _____
Managing Division / Dept: Public Works / Road and Bridge

BUDGET IMPACT:

☐ Annual **FUNDING SOURCE:** _____
☐ Capital **EXPENDITURE ACCOUNT:** _____
☒ N/A

HISTORY/FACTS/ISSUES:

As part of the storm water design for CR 528 Phase 1 between CR 526A and SR 471 the engineer of record (Springstead Engineering Inc.) had to utilize all available right-of-way for storm water retention. This area is insufficient to meet design requirements and additional property has to be obtained. An agreement between Sumter County Board of County Commissioners and Sumter County School Board is being recommended for use of a portion of school board property, for storm water retention, located immediately north of CR 528 and west of SR 471. Associated exhibits and a Memorandum of Agreement (MOA) for consideration, approval and execution are included. Once this MOA is fully executed the bidding process for the roadway improvement project can commence.
